

# What are the minimum requirements for WCCP with WSA?

## Contents

[Question:](#)

### Question:

What are the minimum requirements for using WCCP with Cisco Web Security appliance (WSA)?

The minimum requirement for using WCCP with WSA is:

- Minimum of two interfaces or sub-interfaces, not secondary addresses, on the network device doing WCCP

Additionally, we do not need any access lists or security passwords in the WCCP configuration on the network device. At a minimum, we only need two commands for WCCP redirection:
