

Configure Port Mirror on the RV110W

Objectives

Port mirroring monitors network traffic by sending copies of all incoming and outgoing packets from one port to a monitoring port.

The objective of this document is to show you how to mirror ports on the RV110W.

Applicable Devices

- RV110W

Port Mirroring

Step 1. In the GUI choose **Administration > Diagnostics > Port Mirroring**.

Port	Mirror Source
0 (WAN Port)	<input type="checkbox"/>
1	<input type="checkbox"/>
2	<input type="checkbox"/>
3	<input type="checkbox"/>
4	<input type="checkbox"/>

Mirror Port: 1

Save Cancel

Step 2. Check the check boxes of the ports that will be mirrored from the *Mirror Source* column of the *Mirror Configuration* table.

Step 3. Choose the port that will be the mirror From the *Mirror Port* drop-down list, .
